

**The CCR Group has collected 44 thousand items for the Winter Clothing Campaign which ends on May 15**

*The campaign which ends on May 15 has surpassed last year's numbers, when 40 thousand pieces of clothing were donated to charitable institutions*

The São Paulo concessionaires of the CCR Group – CCR AutoBAn, CCR ViaOeste, CCR RodoAnel and CCR SPVias – have collected, until this moment, over 44 thousand pieces of clothing for the 2012 Winter Clothing Campaign. Users may participate until May 15. In order to increase the campaign's potential, as with prior years, the company's employees also participate.

Collection posts were placed in several points along the highways (toll plazas, posts of assistance, service stations, and control stations) so that people can deliver clothes that are in good condition which they no longer use.

The collection points of the Winter Clothing Campaign are being advertised by the concessionaires through messages on the electronic panels (PMVs), banner on the website, and informative brochures which are distributed at the toll plazas.

All the items collected by the concessionaire at the administrative office and highways will be donated, within the month of May, to the charitable institutions of cities in every region where they operate. In 2011, the four units of the CCR Group collected over 40 thousand pieces of clothing. With the participation of users, we expect to double this number in 2012.

The Winter Clothing Campaign is an initiative of the Social Solidarity Fund of The State of São Paulo – Fussesp, with the partnership of all of the Departments of State, businesspeople, and society. Fussesp, with the support of the various segments of society, plans strategies, establishes collection points, and coordinates actions to help thousands of families in need to face the winter with more security, dignity, and human warmth.

**About the CCR Group:** The CCR Group is one of the largest infrastructure concession groups in Latin America, currently employing around 10 thousand collaborators. It controls 2.437 kilometers of highways under the management of the concessionaires CCR Ponte (RJ), CCR NovaDutra (SP-RJ), CCR ViaLagos (RJ), CCR RodoNorte (PR), CCR AutoBAn (SP), CCR ViaOeste (SP), CCR RodoAnel (SP), CCR SPVias (SP), and Renovias (SP), the last two through its controlled CPC. The CCR Group also operates in correlated businesses, with a 38.25% participation in the STP, which operates the electronic toll and parking payment system, and a 45% participation in the social capital of *Controlar*, the concessionaire that operates the vehicular inspection program of the City of São Paulo. Furthermore, CCR is also present in the passenger transport business through São Paulo's yellow subway line 4, *Linha 4-Amarela*, managed by its ViaQuatro concessionaire, with a 58% share of the company's social capital. Being committed to sustainable development, CCR signed, in 2011, the ONU Global Pact, also having returned to the theoretical portfolio of the ISE – Corporate Sustainability Index of BM&FBovespa.

São Paulo, May 4, 2012.
